

Council Conversation Producing Protocols

Councilmembers are booked for the show based on the following criteria:

- Topical timeliness – i.e. Is there a new transportation measure before the council? We'll book the Chair of the Transportation Committee; or is there a big push in the community for affordable housing? We'll look into who's heading that issue among the Councilmembers
- When were they last on the show – were most, if not all of the others Councilmembers featured between the current proposed guest and their last appearance?
- Availability – who is available for the upcoming month's production schedule

Note:

The producer of Council Edition and I update each other every month as to who is scheduled to appear on the two Council shows featured on the Seattle Channel. Our goal is to not have overlapping guests, however due to the Councilmembers busy schedules, this is sometimes unavoidable as we are each trying to book for our respective programs.
