Citizens of Seattle

Re: Report Of Contributions and Expenditures In The 1995 City Election

Dear Citizen:

The attached report is published by the Seattle Ethics and Elections Commission, in compliance with the Seattle Municipal Code 2.04.060(B)(9), to give you information about the financing of the 1995 Seattle City campaigns. It was compiled from the campaign finance disclosure reports that the candidates and ballot issue committees were required to file, under the Seattle Elections Code.

The report graphically illustrates the dramatic increase in the cost of Seattle ballot issue and local office campaigns. We have not tracked the cost of ballot issue campaigns in the past, but the \$1,324,438 spent on three ballot issues, compared to the \$860,406 spent by fifteen candidates for five Council positions might indicate an escalating price for this form of direct democracy. We have tracked the cost of council campaigns and this report provides evidence that the 1995 Council races were nearly double the cost of the 1993 campaigns. Disclosure and contribution limits have not eliminated the influence of money on elections.

Since July 1995, we have distributed reports of the campaign finances of City office candidates and City ballot issue committees, in paper copy and on the Internet at <http://www.pan.ci.seattle.wa.us/seattle/ethics/ethics.htm>. This report will soon appear at that address.

We hope this report assists you in understanding and participating in City government. If we can provide more information, please call us at 206/684-8500, e-mail us at [director.seec@ci.seattle.wa.us](mailto:director.seec@ci.seattle.wa.us), or come into the office at 226 Municipal Building, 600 Fourth Avenue, Seattle, 98104.

Yours truly,

Carolyn M. Van Noy,  
Executive Director

## I. INTRODUCTION

The information for this report was compiled from reports filed by each candidate and ballot issue committee, for a period from the beginning of each campaign through November 30, 1995. Except that data from Citizens For A Community Based City Council and Citizens for Affordable Housing is current only until October 31, 1995. Their November 30, 1995 reports were not received in time to be included.

Throughout this report, the names of ballot issues may be followed by "Passed"/"P" or "Failed"/"F" and candidate names may be followed by an "Incumbent"/"I" and/or "Elected"/"E". All City office elections are non-partisan, so party affiliation is not relevant. The following is a list of 1995 City primary and general election (in bold) ballot issues and candidates:

## II. 1995 CITY OFFICE AND BALLOT ISSUE CAMPAIGN CONTRIBUTIONS

### A. Total Contributions

The contributions listed in this report include not only the itemized contributions, but also the contributions under \$25, anonymous contributions (up to \$300 may be accepted), loans and the candidates' personal funds. If a candidate has loaned more than \$3000 to his or her campaign it is categorized as a candidate contribution, not a loan. Candidates can only be reimbursed for \$3,000 in loans to their campaigns. Chart 1 below lists the total amount of contributions received by each ballot issue campaign and by each candidate committee (all numbers are rounded).

Chart 1

Figure 1 below graphs the total contributions information in Chart 1. Figure 2 graphs the total contributions received by ballot issue committees and Figure 3 graphs the total contributions received by candidates. The absence of contribution limits on ballot issue committees may account for the ballot issue committees collecting 50% more than the candidate committees (candidate committees raised just under \$900,000, while the ballot issue committees raised more than \$1,350,000).

## B. Size Of Contributions

The following pie charts graphically report the size of in-kind and monetary contributions received. These graphs do not include candidate contributions to their own campaigns, receipts from a low-cost fundraiser, interest from a bank account, transfers from a previous campaign, contributions of less than \$25, anonymous contributions or loans. Figure 4 reports the percentage of receipts in amounts of \$25 or less, between \$25.01 and \$99.99, and \$100 or more. Figure 4 is influenced by the predominance of contributions over \$100 to the ballot issue committees, as reported in Figure 5 (see also Figures 7 to 12). Figure 6 reports that approximately 75% of the contributions to candidates were over \$100, whereas 95% of the contributions to ballot issue committees were over \$100. Figures 13 to 25 support that conclusion.

### C. Types Of Contributors

Each campaign was required to itemize all in-kind and monetary contributions. We have designated the itemized contributions by type of contributor as follows:

- Candidates;
- Corporations/Partnerships;
- Individuals;
- Miscellaneous Receipts: includes loans, anonymous contributions, receipts from a low-cost fund-raiser, interest on a bank account and funds transferred from a previous campaign for the same office. Up to \$3,000 in loans from a candidate to the campaign are included here;
- Other Organizations: includes contributions from unions and associations;
- PACs: Political Action Committees.

Figure 26 reports the percentage of contributions received from the groups identified above for all committees and Figures 27 and 28 report the same information for ballot issue committees and for council campaign committees, respectively. Figures 29 to 48 confirm that the candidate committees relied more heavily on contributions from individuals, than did the ballot issue committees.

### D. Area Of Contributors

The following pie charts report the areas that the contributors reported were the locations of their home or business addresses. The areas inside the City limits include Capitol Hill/Queen Anne/Magnolia, Downtown, Greenlake/University District, West Seattle, North Seattle and South Seattle. The report also includes contributions from Outside of the City and "Unknown/NA." The Unknown/NA category includes contributions from the candidate to his or her own campaign, loans, bank interest, receipts from a low cost fundraiser, transfers from a previous campaign, anonymous contributions and contributions of less than \$25 (these are not itemized, but the committees report the number of contributors and total amount of contributions).

Figure 49 reports that the plurality of contributions for all campaigns were from Downtown. This, too, was influenced by the ballot issue committees. Figure 50 reports that the ballot issue committees received over 50% of their contributions from Downtown, while Figure 51 reports that the candidate committees received only 10.7% of their contributions from Downtown, nearly 19% from outside of the City, and 17% from Capitol Hill/Queen Anne/Magnolia. For the most part, the individual campaign pie charts in Figures 52 to 71 confirm that conclusion.

### III. 1995 CITY OFFICE AND BALLOT ISSUE CAMPAIGN EXPENDITURES

#### A. Total Expenditures

Chart 2, below, reports the total expenditures for all 1995 City campaigns. Figure 72 graphs the Chart 2 information. Figures 73 and 74 report that one ballot issue committee and one council candidate committee expended more than all of the other committees in their respective categories.

## B. Types Of Expenditures

Each campaign itemized all expenditures over \$50 and provided a code for each that identified its purpose. The following is an explanation of each code used to identify the purpose of each expenditure, i.e., the type of expenditure:

- ◆ Fundraising: (F) Fundraising
- ◆ Literature/Mail: (L) Literature, includes fundraising mailings  
(P) Postage, includes fundraising mailings
- ◆ Miscellaneous: (C) Monetary, In-Kind and Earmarked Contributions  
(I) Independent Expenditures  
(V) Voter Signature Gathering
- ◆ Operations: (S) Surveys & Polls  
(T) Travel, Accommodations, Meals  
(G) General Operation and Overhead
- ◆ Staff & Consultants: (M) Management and Consulting Services  
(W) Wages, Salaries and Benefits
- ◆ TV/Radio/Newspaper Advertising (B) Broadcast Advertising  
(N) Newspaper & Periodical Advertising  
(O) Other Advertising

The report also utilizes a category titled "In-Kind/Unitemized." This category consists of expenditures that the campaigns did not itemize, i.e., contributions under \$50 and in-kind contributions (which are listed as contributions and expenditures, since they would have been expended from campaign funds if they had not been given as in-kind contributions).

Figure 75 reports the expenditures of all campaigns by the categories listed above. While it reports that most expenditures were for Literature/Mail in all campaigns, Figures 76 and 77 indicate that the ballot issue committees spent a greater percentage of their funds for TV/Radio/Newspapers than did candidate committees. Figures 78 to 96 confirm that conclusion.

#### IV. YEAR TO YEAR TRENDS

##### A. Total Contributions Received, Averaged By Council Position

Figure 97 reports that the 1995 Council candidates raised nearly twice as much as the 1993 Council candidates. In 1993, the total contributions to the candidates running for all four Council positions was \$415,480 (\$103,870 per position). In 1995, the candidates for the five Council positions raised \$896,125 (\$179,225 per position). In 1993 and in 1995, the positions included one open seat.

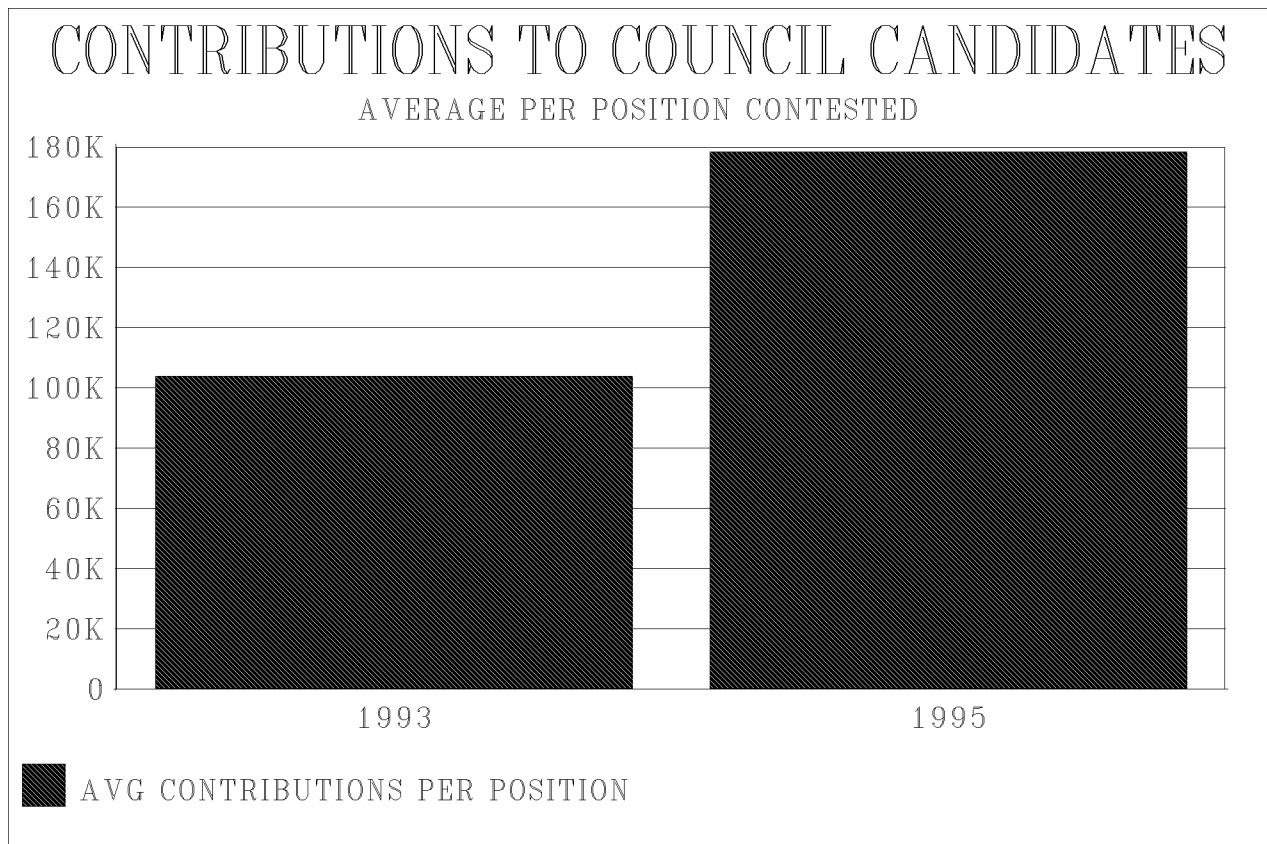

Figure 97

## B. Average Contribution To Council Campaigns

The Seattle Elections Code imposes a \$400 limit on contributions to each candidate. Seattle no longer has expenditure limits, however. The United States Supreme Court has ruled that expenditure limits may not be imposed on candidates without giving them something in return. See Buckley v Valeo, 424 U.S. 1, 96 SCt 612, 46 L.Ed.2d 659 (1976). Prior to 1992, the Seattle Elections Code required expenditure limits of those City office candidates who accepted partial public financing. In November 1992, Washington voters passed Initiative 134, which prohibits the use of public funds for state or local elections. As a result, Seattle lost the authority to offer partial public financing of campaigns and with it the authority to impose expenditure limits.

The 1975-1987 information on Chart 3, below, was compiled by the former Seattle Elections Administrator, Allen Miller. That segment of the chart lists the average contribution to "highly contested City Council races." Unfortunately, we do not have data from 1989 or 1991. The data we have added for 1993 and 1995 reports the average contribution to all City office campaigns in those years. Despite the difference in scope, the trend is clear. During the years when Seattle had public financing: 1979, 1981 and 1987, the average contribution was lower than the previous and following years in which public financing was not in place.

**AVERAGE CONTRIBUTION**  
(public financing was in place during the bolded years)

<b>1987</b>	<b>\$48</b>
1989	(not available)
1991	(not available)
1993	\$99
1995*	\$85

Chart 3

\*The 1995 average is lower than 1993, because 1995 is the first year in which we included the number of contributors who contributed less than \$25 and were not itemized in the campaign's reports.

Chart 3 does not include contributions to ballot issue committees. In 1995, we also calculated the average contribution to City ballot issue committees. The six City ballot issue committees received a total of \$1,357,567.74 in contributions from 2,929 contributors (contributors are counted more than once if they gave to more than one campaign), resulting in the average contribution of \$452.31 to ballot issue committees.

Figure 98 reports the average contributions listed in Chart 3.

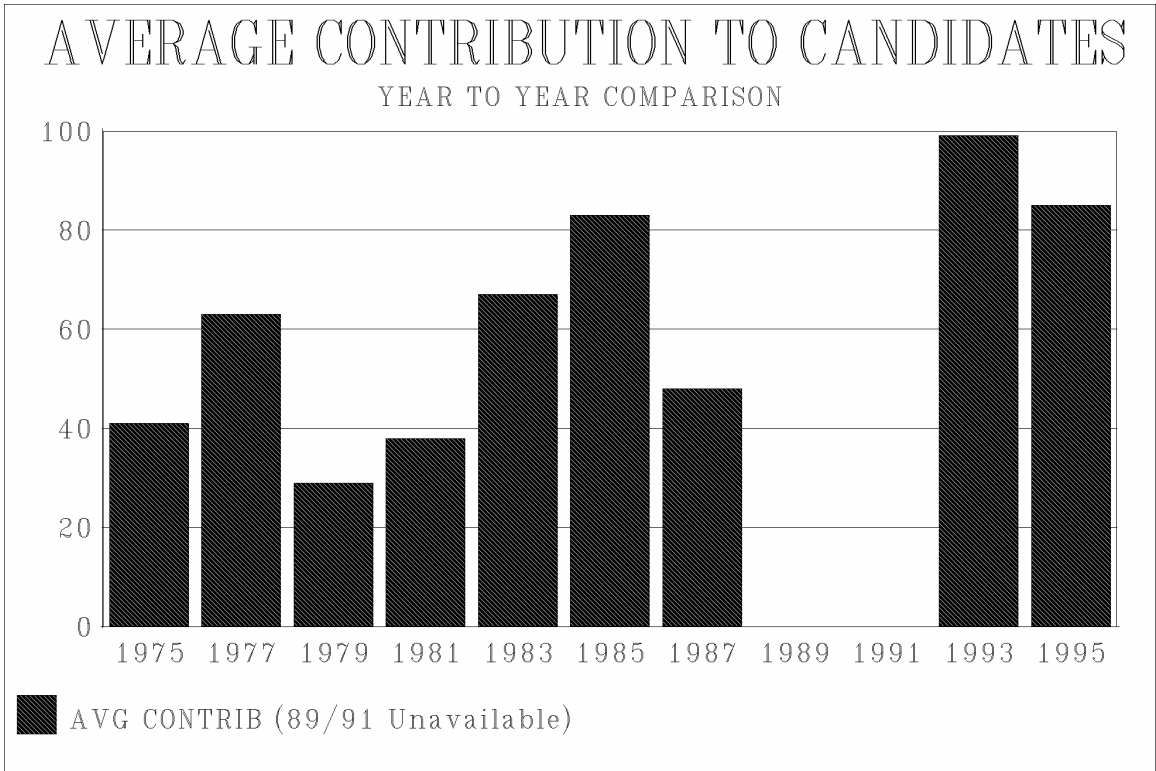

Figure 98

**C. Total Expenditures Made, Averaged By Council Position**

Figure 99 reports that the cost of City Council campaigns nearly doubled in the last two years. In 1993, the total expenditures were \$422,672 for four Council positions (\$105,668 per position). In 1995, the amount spent was \$860,406 for five Council positions (\$172,081 per position).

## Contributors of \$100 Or More To 1995 City Ballot Issue And Candidate Committees

This list is organized alphabetically. It includes all ballot issues and candidates that were on the ballot in 1995. Some contributors' aggregates are over the \$400 contribution limit to candidates. The three most common reasons for this are: 1) there is no contribution limit for ballot issue campaigns, 2) the contribution limit did not go into effect until October 16th, 1994 and several campaigns had raised funds prior to that date, or 3) the campaign has refunded the excess over the contribution limit but has not yet had to report this refund.
