CoVid 19 Guidance:

Seattle Parks and Recreation (SPR) contracts and permits require concessions to abide by all federal, state, and local laws and regulations. New and evolving COVID-19 related regulations and orders are included within the contractual requirements. Your business must be fully compliant with current and emerging laws and regulations from all levels of government related to public health and safety. In addition to Washington State's plan, King County or the City of Seattle may enact unique regulations or restrictions in their regulatory capacity, and you will be expected to follow those as well.
