

Lakeridge Park (Deadhorse Canyon) Trail Investigation

Always use caution when hiking on park trails.

The City of Seattle is aware of concerns about visible cracks along and across the trail as shown in the picture below. Seattle Public Utilities (SPU) owns and manages a sewer line that runs beneath the trail. SPU is currently examining trail slope stability to determine whether any additional actions are needed to protect our buried sewer line. Recent dye and smoke tests do not indicate any leaks in the sewer pipe. Trail condition will be monitored and future stabilization or repairs to the trail will be determined. We will have more information to share in mid-2015.

If you have questions about the project or trail, please contact:

Seattle Public Utilities Project Manager
Betsy Lyons
Betsy.Lyons@seattle.gov
206-233-2511

Parks Department Senior Planner
Cheryl Eastberg
Cheryl.Eastberg@seattle.gov
206-396-4381.

In case of a landslide emergency, please contact the SPU 24/7 Emergency Services line at 206-386-1800.
