15th Ave S will be part of the Beacon Hill Bike Route

We're creating a safe and comfortable bike network that will allow people of all ages and abilities to safely bike to businesses and community destinations on Beacon Hill. This is the first segment of what will become the new Beacon Hill Bike Route. This route will expand the bike network by connecting to existing protected bike lanes on 12th Ave S, S Columbian Way, S Myrtle St, and the I-90 and Chief Sealth Trails.

WHY 15TH AVE S?

This route emerged as the top choice based on it being a direct and flat route with opportunities for safety improvements. It was also preferred by 63% of the people engaged through public outreach activities in 2020 and 2021. We will need to remove all parking along 15th Ave S to install the protected bike lane.

WHAT'S NEXT?

We want to work with the community, specifically 15th Ave S residents, as we design this protected bike lane in north Beacon Hill. To learn more about the route, its design and opportunities to provide feedback, visit bit.ly/BikeBeaconHill.

This project is funded by the Mercer Megablock sale and the 9-year Levy to Move Seattle approved by voters in 2015.
