Small Business Support Resource Guide During Construction

The Green Lake and Wallingford Paving and Multi-Modal Improvement's Project is in the process of making roadway and pedestrian improvements in the Green Lake and Wallingford communities. We understand that construction can be difficult and is made even more so due to the impacts of COVID-19 on small businesses throughout Seattle. The list below contains information about financial resources that are being offered by the City of Seattle's Office of Economic Development's (OED) Small Business Support Team. If you would like to learn more about these resources or have additional questions, we recommend you visit their [webpage](#) or contact AJ Cari (aj.cari@seattle.gov, 206-684-0133).

Questions about construction?
